

# CLEAN MOBILE

MOBILITY FOR THE COIN LAUNDRY

# CLEAN MOBILE

System of transportable modules, totally equipped and with different configuration options. Permits the creation of laundrettes in just one step.

## Design your module

Select the configuration options that best meet your needs.

### ▼ DIMENSIONS / TYPE OF TRANSPORT

**Sea transport**  
Width A: 2,35 m

**Land transport**  
Width B: 3 m (more usual)

### ▼ MODULE TYPE

## Your module comes with a construction certificate and EEC certificates

Metal structure manufactured in accordance with Regulation (EU) 305/2011 of the European Parliament and of the Council of 9 March 2011 laying down harmonised conditions for the marketing of construction products, for the Factory Production Control for the CE Marking of Metal Structures, the scope of which is the Design, manufacturing and assembly of metal structures and buildings. Monitoring and inspection is carried out by the certifying body, TÜV Rheinland, who issues a certificate of compliance with the Factory Production Control (FPC) based on the standard UNE-EN 1090 :2011+A1 Execution of steel structures and aluminium structures.

**Part 1:** Requirements for conformity assessment of structural components.

**Part 2:** Technical requirements for the execution of steel structures. EXC-3 2+

## Design the interior

The standard module is designed to be very light, with a front that allows you to see the elegance of its interior.

### WASHER EXTRACTORS

- AIR CONDITIONING
- TWO-LEAF DOOR
- ACCESS RAMP FOR THE DISABLED
- EXTRA VENTILATION GRILLE
- DOMOTIC
- STAINLESS STEEL STRUCTURE
- ... WHAT DO YOU NEED?

# CLEAN MOBILE

## What is the module like?

The module is designed to create an attractive space for the customer, at the same as offering optimum service and maintenance.

### FRONT VIEW

#### What do we want from the front part?

A module which looks good from the outside, with large windows to allow people to recognize the business.

#### PUBLIC ZONE

### REAR VIEW

#### What do we want from the service zone?

The rear part is the service zone, which must provide easy access to the machinery and all the accessories. How? By including sliding doors.

#### Service and maintenance: the easiest.

#### SERVICE ZONE

**We can design the module to meet your needs**  
**We make the project to your order**

**The module is designed for transportation with the machines inside.**

**All the installations referring to the machines come completed.**

**The machines are levelled at the top and therefore some plinths must be manufactured in the container.**

**This design requires automatic dosing installed (in charge of the proprietor)**

**The machines are anchored to the floor.**
